Aarav Mehta

Noida, Uttar Pradesh, India | aarav.mehta@email.com | +91 98765 43210 | github.com/aaravmehta

SUMMARY

Computer Science student with hands-on experience in Python, SQL and Machine Learning. Built data analysis and computer vision projects using Pandas, Scikit-learn, TensorFlow and OpenCV. Strong problem solving and communication skills. Looking for an AI/ML internship to build and deploy real-world machine learning models.

SKILLS

Languages: Python, SQL, C++, JavaScript, HTML, CSS
AI / ML: Machine Learning, Deep Learning, NLP, Computer Vision, TensorFlow, Keras, PyTorch, Scikit-learn, OpenCV
Data: Pandas, NumPy, Data Analysis, Data Visualization, Matplotlib, Plotly, Excel, MySQL, MongoDB
Tools: Git, GitHub, Docker, Streamlit, FastAPI, Flask, Linux, Jira, Agile

EXPERIENCE

Machine Learning Intern - TechNova Solutions, Noida | Jun 2025 - Aug 2025

- Built a customer churn prediction model using Python, Pandas and Scikit-learn, reaching 91% accuracy on 50,000 records.
- Automated data cleaning and reporting with SQL and Python scripts, reducing manual work by 40%.
- Deployed the model as a REST API using FastAPI and Docker, serving 500+ requests per day.
- Collaborated with a team of 5 engineers using Git, GitHub and Agile sprints.
- Created data visualization dashboards with Matplotlib and Plotly that improved reporting speed by 30%.

Data Analysis Intern - Insight Analytics, Remote | Dec 2024 - Feb 2025

- Analyzed 20,000+ sales records with Excel, SQL and Pandas to find trends and present findings to managers.
- Developed 10 reusable SQL queries that reduced report preparation time by 25%.
- Presented weekly insights to a team of 8 using clear communication and data visualization.

PROJECTS

ResumeMatch AI - Resume and Job Description Matcher | Aug 2025 - Oct 2025

- Developed a Streamlit app that scores resumes against job descriptions using NLP, TF-IDF and Scikit-learn.
- Implemented PDF parsing with PyMuPDF and skill extraction for 150+ skills, with 95% test coverage on matching logic.
- Published the project on GitHub with unit testing and a clear README.

CV Object Detector - Computer Vision | Mar 2025 - May 2025

- Trained a YOLO model with OpenCV and PyTorch to detect 12 object classes with 88% mAP.
- Optimized inference speed by 35% using image resizing and batch processing.

EDUCATION

B.Tech in Computer Science and Engineering - UPES University, Dehradun | 2023 - 2027
CGPA: 8.4 / 10. Relevant coursework: Data Structures, Algorithms, Machine Learning, Database Management, Statistics.

CERTIFICATIONS

- Machine Learning Specialization - Coursera, 2025
- TensorFlow Developer Certificate preparation course - 2025
- SQL for Data Analysis - 2024
